

Tokenomics:

Only 10,000 Time Wizards NFTs will ever be minted, at a cost of 1 AVAX. Revenue from minting will be used to purchase Wonderland (wMEMO), a highly successful protocol on the Avalanche network providing substantial interest in returns. Once all 10,000 Time Wizards have been minted airdrops will begin to Time Wizards NFT holders.

Airdrops:

This is not a raffle and no prize is guaranteed. If we did that, this would be a raffle. This is definitely not a raffle because regulator cavemen say “Raffle bad”. We’re generous folks who love to send airdrops. At a random time each calendar day a snapshot of all current Time Wizards NFT holders will be taken. From these holders we’ll randomly send an airdrop of \$5,000 worth of wMEMO. The preview of the receiver’s wallet address will be posted on the Time Wizards [Discord](#) and Twitter accounts so they know they have received an airdrop.

Let us repeat. This is not a raffle or lottery. We’re just giving back to our peeps...
