

Tokenomics:

Only 10,000 Time Wizards NFTs will ever be minted, at a cost of 1 AVAX. Revenue from minting will be used to purchase Wonderland (wMEMO), a highly successful protocol on the Avalanche network providing substantial interest in returns. Once all 10,000 Time Wizards have been minted a daily airdrop will begin to Time Wizards NFT holders.

Airdrops:

At a random time each calendar day a snapshot of all current Time Wizards NFT holders will be taken. From these holders a random user will be chosen to receive a daily airdrop of \$5,000 worth of wMEMO. The preview of the receiver's wallet address will be posted on the Time Wizards [Discord](#) and Twitter accounts so they know they have received an airdrop.
